Quality Matters!

MARYLAND EXCELS

Our program proudly participates in Maryland EXCELS, the state's Quality Rating and Improvement System, because we believe children deserve high-quality early care and education. We are committed to growing and improving every day so that we can help your family thrive.

Our Maryland EXCELS Quality Rating reflects our efforts to:

- Support children's health and safety
- Continue education and learning about best practices
- Provide a supportive and nurturing learning environment
- Help families be active in their child's education

Below are some examples of high-quality services we've put in place to achieve our quality rating. To learn more about Maryland EXCELS Quality Ratings and Maryland's standards for high-quality care and early learning, please visit **marylandexcels.org**.
